The Price & Lee Company is pleased to publish the 1976 edition of the Union City Directory. The City Directory contains household and business information within five major sections.

- I. The Buyers Section, printed on ivory paper, displays under appropriate headings, those advertisers within the community who ardently support the directory service and desire to make a presentation of their products and services.
- II. The Classified Section, printed on yellow paper, lists alphabetically under appropriate headings those businesses contained throughout the City Directory, serving as a comprehensive guide of the business sector in the community.
- III. The Alphabetical Section, printed on white paper, is a complete alphabetical listing of all available households and businesses; and defines that information according to home and business addresses, occupations, marital status, etc.
- IV. The Street Section, printed on green paper, contains in alphabetical sequence all streets; and list under each street description in numerical or house sequence the dwellings on that street, the occupant, telephone number if possible, and an indication of whether the home is privately owned. Business information is characterized by job description where pertinent.
- V. The Telephone Section, printed on blue paper, is a complete list of all phones numerically listed under appropriate exchanges giving telephone number and owner.

The five sections of the City Directory, along with the introduction (including governmental information) gives a complete survey of the population of the Union community.

PERTINENT FACTS ABOUT UNION TOWNSHIP

BY MAYOR JOHN S. ZIMMERMAN

UNION is one of those fortunate municipalities which has struck a happy balance between residential development, business and industry. As a consequence, the township preserves a distinctive suburban air enhanced by commercial development which must meet high standards of acceptability and compatability with the community at large.

Union's greatest asset, of course, is her people. Our population experienced phenomenal growth in the 1920s, 1930s, and 1940s and now has stabilized at a comfortable rate. The 1970 Census puts us at 53,077 residents. This compares to 3,962 in 1920; 16,455 in 1930; 24,735 in 1940; and 51,500 in 1960.

While feverish construction activity marked much of Union's recent past, there is now a more leisurely development reflecting the community's concern with ecology and aesthetics. The Township insists on high standards and gets them. While substantially developed, the township still possesses adequate building space, but regards this land as a public trust and exerts every effort to develop it accordingly.

Geographically, Union is in an ideal location for business and industry. It is part of the New York-Newark commercial hub while actually being on its periphery. The Township offers excellent rail, highway, ship and air linkups. Many prestige businesses and industries have flocked to Union to take advantage of just such a unique combination of advantages. Their citizenship and participation in the affairs of the community has been excellent indeed.

Correspondingly, the Township government has matched the growth of population and commerce with an increase in the quality and scope of its services. Police, fire, health, street, building and other customary municipal departments have kept pace with the burgeoning requirements of a more sophisticated and discriminating public.

And, conversely, the citizens of Union have responded to the affairs and challenges confronting their town with keen interest, active participation and zeal. The youth of Union have never been more positively involved. Churches of various denominations, a wide variety of fraternal organizations and a battery of volunteer groups supplement public work and exhibit excellent public spirit. Area considerations are given attention by neighborhood and local organizations.

Union, justifiably and proudly, is a township of spotless neighborhoods and neat, well-landscaped homes. Civic and residential pride is the watchword. Involvement is a way of life.

Union functions under the township committee form of government which has five members elected by the people. The Board of Education is a separate entity completely. This setup has been ideally suitable. It is simple, flexible, completely representative and quickly responsible. It furnishes the means to translate the wish of the people into action.

HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory

16% to 18% Move away or die

17% to 19% "New" people move into town or reach listing age.

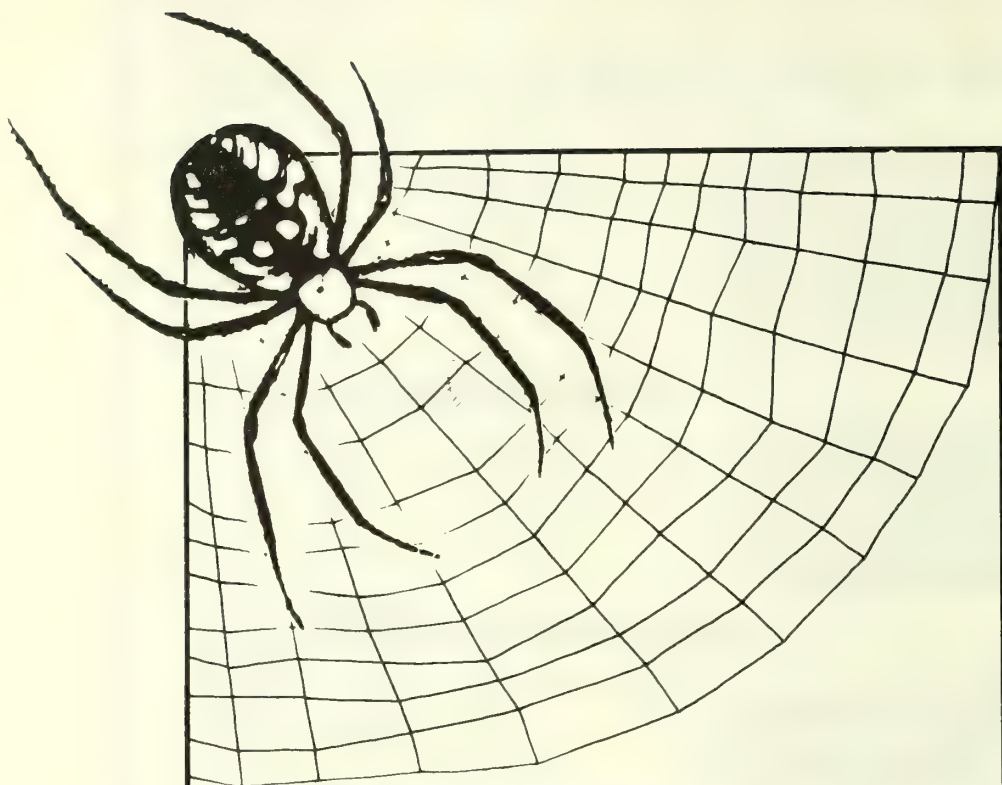

26% to 29% More change their addresses or their jobs or some other vital fact that affects their listing.

(All that's left that's good)

Making a total of **59% to 66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

UNION STREET DIRECTORY

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear".

The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.

"Right Odd" after street description indicates odd numbers on right side of street.

The symbol * following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

S Res Denotes Summer Residence

Zip Codes are included in the description of each street and changes in Zip Code for streets with more than one code are indicated at the address where the change occurs.

TUNJO-DOES HE MAKE
WISHES COME TRUE??

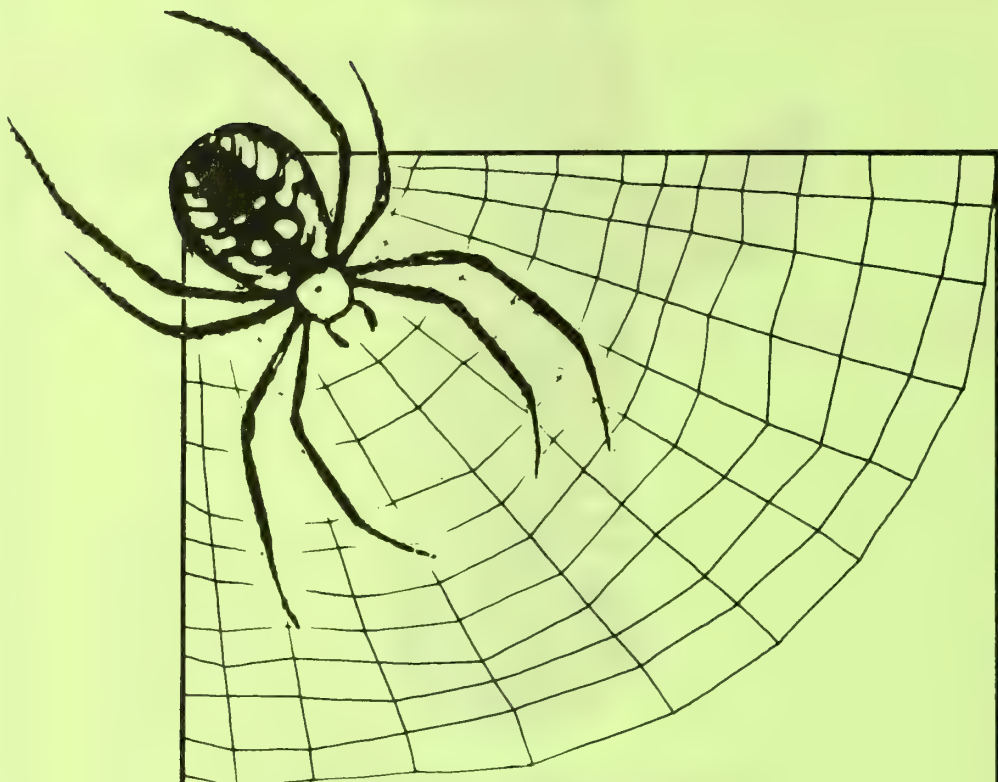

This is a Tunjo

It was believed by the Colombian Indians to have the power of making wishes come true. This design was taken from a Tunjo (the most powerful man) made of solid gold and was believed to have the double nature of spirit (with wings) and body (a scorpion). It may be seen in the Gold Museum in Bogota.

You could probably paint a picture of a Tunjo on a piece of plain paper, burlap or cloth, and hang it on your wall. Every morning when you rise, you could make a wish that business will get better.

Or You could be more positive and place an advertisement in the **CITY DIRECTORY**.

Lack of advertising... beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

STREET DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)
 The abbreviation "r" after the street number and the name signifies "rear".
 The word "vacant" after a number signifies that the house, office or store at that number was vacant when the canvass was made.
 "Right odd" after street description indicates odd numbers, on right side of street.
 The symbol * following a householder's name indicates that information has been secured during the canvass that the house is owned by some member of the family, but as the publishers cannot and do not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publishers furnish further information than that shown.

S Res Denotes Summer Residence

Please note the Zip Code for the Township of Springfield is 07081

Advertising doesn't just sell products. It sells companies.

**Sell the advantages of buying from your
company by using the prestige of
CITY DIRECTORY ADVERTISING.**

we ask you.

Why is it - a man wakes up in the morning after sleeping under an *advertised* blanket on an *advertised* mattress and pulls off *advertised* pajamas. Takes a bath in an *advertised* tub, shaves with an *advertised* razor, washes with an *advertised* soap, puts on *advertised* clothes, sits down to breakfast of *advertised* coffee, puts on an *advertised* hat, rides to his office in an *advertised* car, writes with an *advertised* pencil . . . Then, he refuses to *advertise*, says *advertising* doesn't pay, and then, if a business isn't good enough to *advertise* . . . he *advertises* it for sale.

If you believe in your business and want to build it . . .

ADVERTISE

SOMETHING

To Think About

For the Advertiser and the Consumer

DO YOU REALIZE that an Advertisement in the City Directory is a Testimonial to the Permanency and Stability of the Advertiser?

A City Directory Advertiser is the logical one to patronize. This permanency and stability is your assurance of a square deal in buying merchandise or having work done.

"FLY-BY-NIGHT," "FIRE SALE," "GET-RICH-QUICK," and other temporary concerns, rarely appear, or advertise, in the City Directory.

It is a noteworthy fact that 90% of the City Directory Advertising is renewed from issue to issue.

There are dominant factors connected with City Directory Advertising: first, the low cost and staple publicity it affords, locally and nationally; second, this co-operation and patronage is wholly responsible for the very existence of the City Directory.

The modern City Directory is a wonderful asset, credit and benefit to the community it represents. In turn, that which benefits the community, automatically benefits the Advertiser.

Judicious Advertising is always a good investment, and City Directory Advertising, cost considered, renders larger returns than any other medium. In connection with the complete Classified Business section, it is doubly effective.

While we have offered you "Something to Think About," it is also Something Worth Remembering.

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore -

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500

Consultations or

Circulation Consulted

TUNJO-DOES HE MAKE
WISHES COME TRUE??

This is a Tunjo

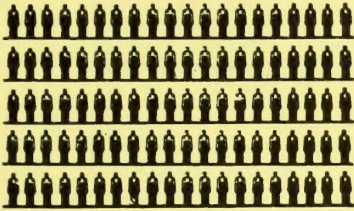

It was believed by the Colombian Indians to have the power of making wishes come true. This design was taken from a Tunjo (the most powerful man) made of solid gold and was believed to have the double nature of spirit (with wings) and body (a scorpion). It may be seen in the Gold Museum in Bogota.

You could probably paint a picture of a Tunjo on a piece of plain paper, burlap or cloth, and hang it on your wall. Every morning when you rise, you could make a wish that business will get better.

Or You could be more positive and place an advertisement in the **CITY DIRECTORY**.
